Why It's Important to Plan for Retirement Today

“Large segments of the population were not adequately preparing for retirement. A large segment of the population was engaged in consumption spending and not enough was being set aside in savings and preparation for a rainy day.”
Trinidad Guardian excerpt

We firmly believe that it's so important to future-proof your finances, whether it's for emergencies or to be able to enjoy retirement years worry-free.

World Environment Day

WORLD ENVIRONMENT DAY

World Environment Day was recently commemorated on June 5 under the theme, "Only One Earth".

The focus is on "Living Sustainably in Harmony with Nature", and with climate change an increasingly critical topic, it's so important to remember that the fate of our planet is in all of our hands.

Here's how you can help create a more sustainable world:

1. Wear sustainable clothing
2. Choose reusable alternatives to single-use plastic (metal straws and utensils, reusable water bottles, etc.)
3. Donate unused items
4. Switch to energy-saving light bulbs
5. Turn off the tap while brushing your teeth or doing the dishes, don't let the water run.
